

## Fiber boxes 360x160

technical drawings: [\\afs\iqo.uni-hannover.de\user\jwolf\work\Resonator\Alugehäuse\Alugehäuse360x160](https://afs.iqo.uni-hannover.de/user/jwolf/work/Resonator/Alugehäuse/Alugehäuse360x160)

### Components

#### Optics

#### Mechanics

- Alu-Box (Typ: ALS01135 - Best.Nr. M01163609)
- for thermal contact was milled of the painted surface on the inside and outside of the bottom
- Alu-base to allow to use optical components, while thermal contact is assured
- for fastening box and base are used four screw connections

#### Electronics

- 6x SMA connectors for
- 1x BNC connector for
- 4x fiber connectors (Typ: )
- 4x fiber connectors (Typ: )

## Fiber boxes 200x139

technical drawings: [\\afs\iqo.uni-hannover.de\user\jwolf\work\Resonator\Alugehäuse\Alugehäuse200x139](https://afs.iqo.uni-hannover.de/user/jwolf/work/Resonator/Alugehäuse/Alugehäuse200x139)

### Components

#### Optics

#### Mechanics

- Alu-Box (Typ: ALS01115 - Best.Nr. M01142009)
- for thermal contact was milled of the painted surface on the inside and outside of the bottom
- Alu-base to allow to use optical components, while thermal contact is assured
- for fastening box and base are used four screw connections

## Electronics

- 4x SMA connectors for
- 1x BNC connector for
- 4x fiber connectors (Typ: ) on two opposite sides
