

## Jour Fixe

Members in attendance: NJ, SS, kHz

Atom Lab:

- Problems with lock of transfer cavity to the clock laser. Could be an issue of the modulation to the laser. This needs to be checked.

Resonator Lab:

- Efficiency of waveguide SHG at 780 nm (1.5 mW out of 20 mW input power).
- New PC has been setup and is running. Next step is to transfer data from old PC to new one.

Next meeting: 24.02.2020
