

Jour Fixe

Members in attendance: NJ, SS, kHz

Atom Lab:

- Ongoing measurements for higher order lattice AC Stark shifts.
- Over last weeks, cleaned up the lab significantly to make space for Q-gyro project.

Resonator Lab:

- PC is ready and working in the resonator lab.
- Data from old drives was also recovered by Klaus.
- Frequency comb lock is working, but needs some final improvements. Then the coupling to PCF can proceed.
- 10 MHz reference had some problems over past week. Need to further look at this in detail.

Next meeting: 09.03.2020
