

# Jour Fixe

NJ, SS, WFP, PG, kHz

## General

- Cellar cleanup going on
- Quench Laser
  - Still only around 50% coupling in the IR.
  - Locking for the quench laser to the transfer cavity to be done

## Atomslab

- Atoms back in DT
- This week to check SWAP cooling

## Reslab/Resonator

- Basically worked on the meta mirrors
  - Ringdown: Not seeing the decay yet. Reflectivity probably not as high as anticipated
- Laserdriver of Rasmus seems to be almost finished now
  - Good feedback from Thijs
