

ResLab

- [Daily Checklist](#)
- [ToDo](#)
- [Labbook ResLab](#)
- [Hiwi-ToDo](#)

Lab-Setup

- [Clock laser](#)
 - [Clock laser fiber between Atom-Lab and ResLab](#)

Resonatoren

- [Resonator 1](#)
- [Resonator 2](#)
 - [Mode Matching Resonator 2 - plan and curve mirror](#)
 - [Aktiv vibration isolation](#)
 - [IGP](#)
 - [CCD Camera](#)
 - [Photodiode](#)
 - [Photodiode Étienne](#)
 - [PDH-Lock](#)
- [Frequency Comb](#)

Frequency Reference System

- [Passive Hydrogen Maser](#): Out of comission after defect → Sent back to PTB in ~2020/2021
- [OCXO](#)
- [Rubidium Frequency Standard](#)
- [GPS](#)
- [Synthesizer](#)
- [10 MHz distributor](#)

RF-Frequency devices

- [Tracker](#)
- [DDS](#)
- [K+K counter](#)

Connections with Reslab

- [Connections to other Labs \(IQ\)](#)

- [Fiber link](#)
 - [PTB-IQ-AEI-HiTec-PTB-Fiber connections](#)

Other laser systems

- [Innolight Mephisto 1064 nm laser](#)

Racks

- [Racks2016](#)
- [Racks2018](#)
- [List of Computer-programs](#)

Measurement schemes

- [Virtual/Transfer Beat](#)
 - [Three corner hat measurement](#)
- [Phase Noise Measurement](#)
- [How to do a heterodyne measurement?](#)
- [How to measure a beat between the frequency comb and a laser?](#)
- [How to measure the finesse without locking the resonator?](#)

Frequency fluctuation effects

- [Frequency fluctuation effects general](#)

Projects

- [Update R2](#) [In process](#)
 - [Active cooling of acoustic box](#) [In process](#)
 - [Projektarbeit Wolf](#) [In process](#)
- [10MHz frequency source](#) [In process](#)
 - [Phase-Lock-Loop](#)
 - [Rauschen von Widerständen](#): <https://elektroniktutor.de/elektrophysik/rauschen.html>
- [FiberLink Upgrade](#) [In process](#)
 - [Fiber boxes](#)
 - [Frequency Measurements Notes/Informations](#)
- [Photodiode](#)
- [CCD Camera](#)
- [HTC-3000](#)

- Mains filter
- 20-Channel-Multimeter/Rasmus-Box
- Multi lowpass filter
- Ring-down Box
- Temperature monitoring with raspberry **In process**
 - Magnesium-Server **In process**
- Meerstetter
- NTC/PTXXXX test stand **In process**
- Monitoring with Redlab **In process**
- Masseschleife **In process**
- Schirmung Spannungsversorgungskabel
- Seismometer Cable and Box **In process**
- New PCF

Useful technical informations

- Available AOM's
- Fiber optics
- ITU Channel
- dBm-Volt-Watt-Table
 - TA Justage
- QR codes

Useful room informations

- Room number: d215
- ResLab computers
- ResLab Software
- Checklist after power failure
- Laser safety signs
- Emergency Checklist ResLab
- Sicherheitsbuch
- Boworringlist
- Door sign:
tuerschild_resonator_labor_2019.doc
- **Laser-safety-checklist hochladen!**
- A/C: Password for PID Settings: 0123
- Youtube
