All meeting notes are listed [here](#).

## Personal pages

If you want to, create your personal wiki page in the groups:mg:private:people:<name>: namespace. Ask Étienne if you want special access rights on these pages (e.g. read-only for others than you and admins).

Be sure to create a **namespace**, not a single page (unless you really want to be restricted to a single page). For this, mind the colon : in the end!
